

## EXHIBIT 1

### Sworn Affidavit of Mr. Charles Perrotta, a former FBI Special Agent and independent handwriting expert

---

Explanatory notes about the context, added by Jay Hegde:

- As noted in my Grievance Statement of October 28, 2015, I have long believed that the surgical log, among other documents, pertaining to the monkey death were falsified. But proving this was hard, because the AU has refused to provide hard copies of the surgical log to me on its own.
- When I finally obtained hard copies of the documents through Open Records Act request (at an out-of-pocket expense of several hundred dollars), it appeared that in addition to various **falsifications** (e.g., false accounts of events) in the document, at least parts of the document were **forged**.
- I asked an independent, highly reputable handwriting expert (please see his CV attached as a part of his statement) to examine this. This sworn affidavit confirms that **parts of the surgical log, including the parts related to the overdosing of the narcotic in question, were indeed forged**.
- This cover page -- and only the cover page -- of this exhibit is prepared by the me. The remainder of this exhibit were provided by the Affiant, Mr. Perrotta.

**AFFIDAVIT OF  
CHARLES E. PERROTTA  
RE: CEDRICK BOUEY;  
HANDWRITING EXAMINATION**

**1 – I, the AFFIANT, am a Forensic Examiner of Questioned Documents in private practice. My Curriculum Vitae is attached hereto as EXHIBIT A.**

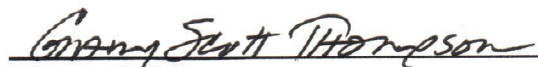

**2 – I was asked to examine evidence in the captioned case. I prepared a REPORT attached hereto as EXHIBIT B.**

**3 – My determination that CEDRICK BOUEY did not prepare any of the questioned five (5) sets of “CB” initials is based on handwriting difference that I noted when comparing the questioned and known handwriting. These handwriting differences include slant of questioned “B” characters being 90 degrees while slant of known “B” characters was 41 degrees, shape of questioned “C” characters was round while shape of known “C” characters was oval, in the questioned writing, there was a penlift between the “C” and “B” characters that was not present in the known “C” and “B” characters and there were other handwriting differences in the questioned and known handwriting, all of which indicate to me that CEDRIC BOUEY did not prepare any of the five questioned “CB” initials in this case.**

**Moreso, the AFFIANT sayeth not.**

  
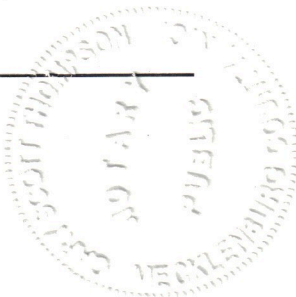

Charles E. Perrotta

**Sworn to and subscribed to before me  
this 17<sup>th</sup> day of November, 2015 at  
Mecklenburg County, North Carolina**

  
Notary Public

**TO WHOM IT MAY CONCERN:**

**RE: CEDRICK BOUEY;  
HANDWRITING EXAMINATION**

On November 16, 20015, I received the following specimens via Internet from Jay Hegde;

Qc1 Copy of GRU Division of Laboratory Animal Resources sheet dated 1-7-14

Kc1 Copies of eleven (11) Monitoring Form sheets, each bearing known initials of CEDRICK BOUEY

Jay Hegde indicated that I should determine if CEDRICK BOUEY did or did not prepare any of the questioned specimen Qc1 five (5) sets of "CB" initials. Following is the result of my examination.

**RESULT OF EXAMINATION:**

It was determined that CEDRICK BOUEY, the writer of specimen Kc1, did not prepare any of the specimen Qc1 five (5) sets of "CB" initials.

Copies of specimens Qc1 and Kc1 were sent to Jay Hegde via U. S. Certified Mail. Copies of these specimens are retained.
